INTRODUCTION

The **INTEND Reporting Tool** aimed at being used by the partners as a reporting platform for the Communication and Dissemination activities accomplished throughout the project duration (M1 to M36).

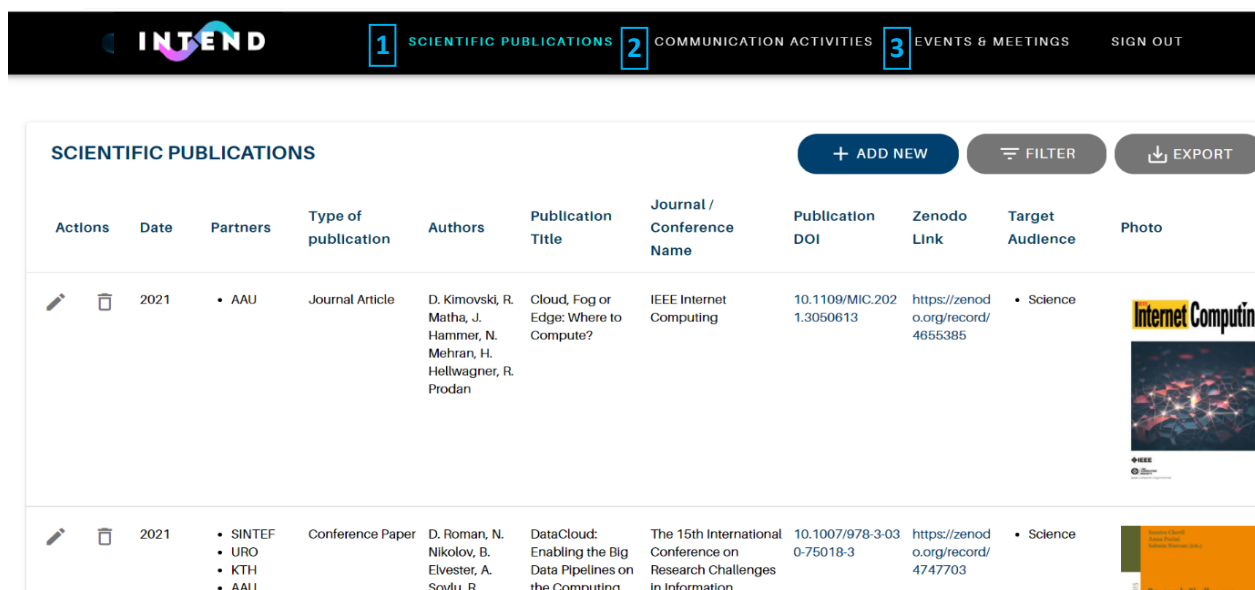

This area is hosted at <https://intendproject.eu/reports> and is protected by an authentication system for users only access.

This document provides insight on how to navigate and use the reporting tool effectively and in a way that reflects the exact Communication and Dissemination KPI's achieved throughout the project.

REPORTING

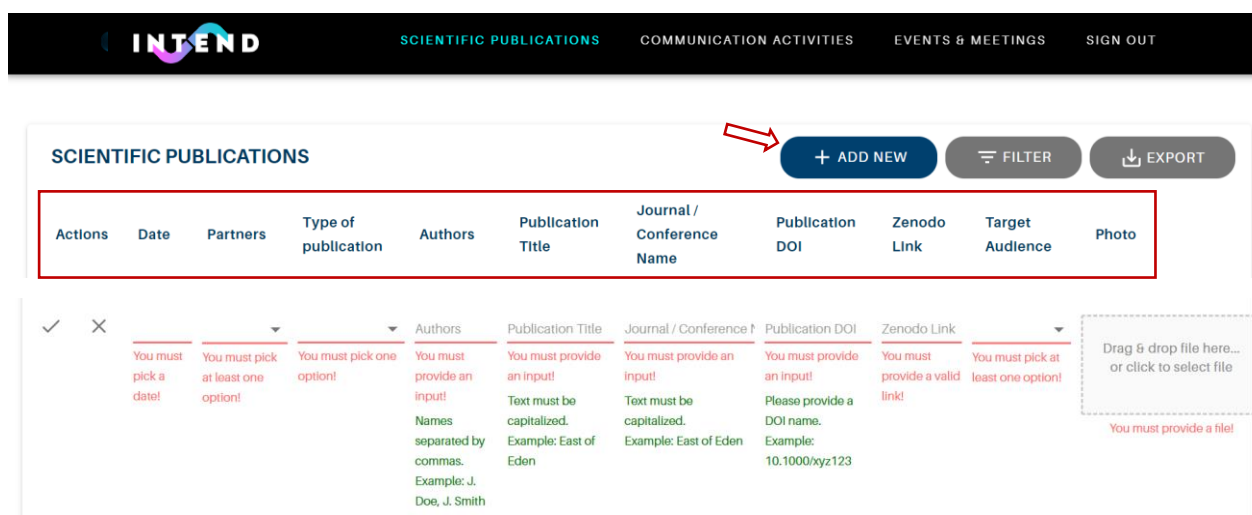

Once logged in, the user will be able to navigate the tool via the navigation bar, which is divided into three main sections – *Scientific Publications*, *Communication Activities* and *Events and Meetings* - as illustrated below:

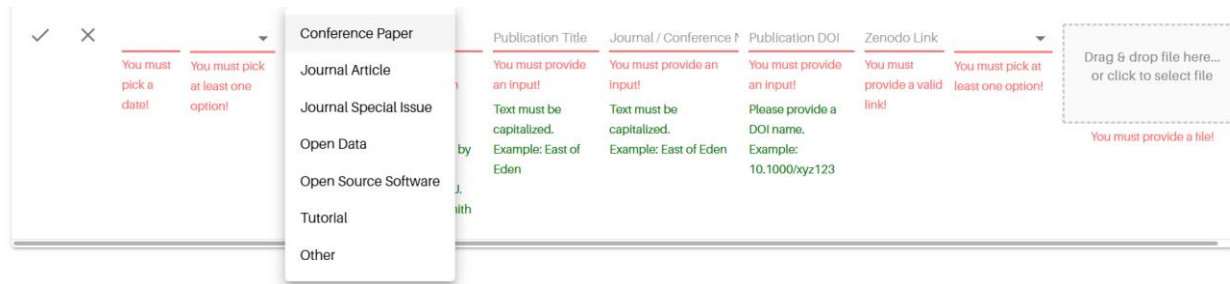

1. Scientific Publications

In this section, the partners must report any conference papers, journal articles, journal special issues, open data, open-source software and/or tutorials that were written/developed in the scope of INTEND.

By clicking the “**Add New**” button, a new entry can be inserted by filling in the following fields:

- **Date:** The year in which the item was published.
- **Partners:** The partner(s) involved in the publication, which can be selected from a dropdown list.
- **Type of publication:** The publication type can be picked from a dropdown list in which the user must select one option only (*Conference Paper, Journal Article, Journal Special Issue, Open Data, Open-Source Software, Tutorial or Other*).

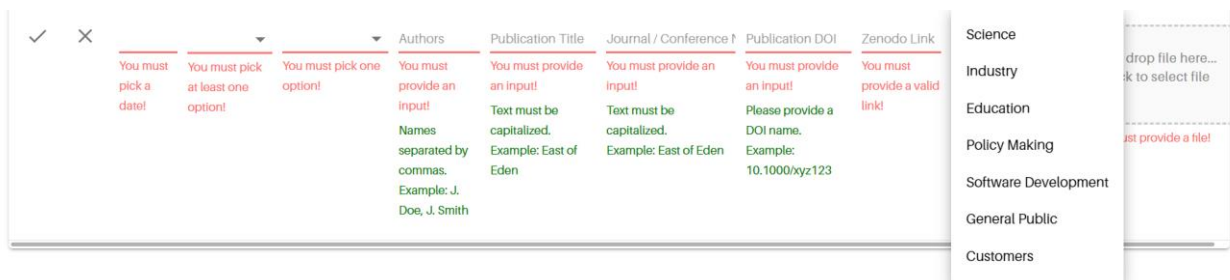

The screenshot shows a form with a dropdown menu open for 'Conference Paper'. The menu options are: Journal Article, Journal Special Issue, Open Data, Open Source Software, Tutorial, and Other. The form fields and their validation messages are:

- Publication Title:** You must provide an input!
- Journal / Conference Name:** You must provide an input!
- Publication DOI:** You must provide an input!
- Zenodo Link:** You must provide a valid link!
- Target Audience:** You must pick at least one option!

Examples of valid input for the text fields are provided: 'East of Eden' for the title and '10.1000/xyz123' for the DOI. A file upload area on the right says 'Drag & drop file here... or click to select file' and 'You must provide a file!'.

- **Authors:** Text field containing the list of publication authors, separated by commas. User input is validated using a regular expression and if the input is not valid, it will not be accepted.
- **Publication Title:** Text field containing the publication title.
- **Journal/Conference Name:** Text containing the name of the journal/conference in which the article was published.
- **Publication DOI:** Text containing the link to the publication DOI in the DOI format.
- **Zenodo Link:** Text containing the link to the publication in the Zenodo repository. Input must be a link otherwise it will not be accepted.
- **Target Audience:** The target audience can be picked from a dropdown menu in which the user must select one or more options (*Science, Industry, Education, Policy Making, Software Development, General Public and/or Customers*)

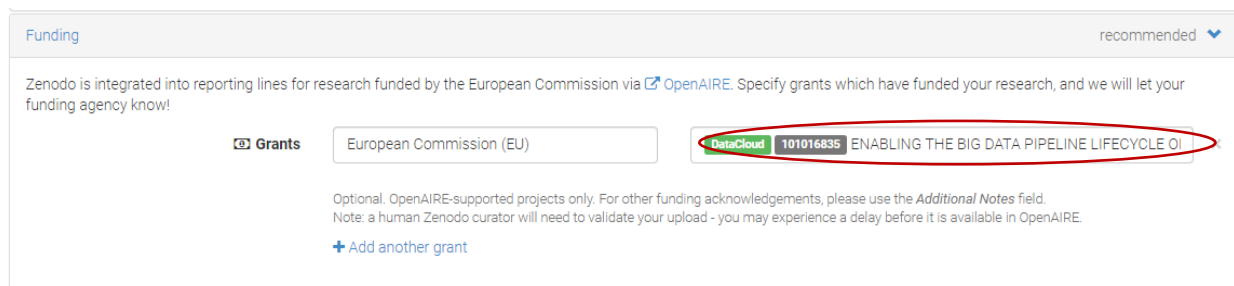

The screenshot shows the 'Target Audience' dropdown menu open, displaying the following options: Science, Industry, Education, Policy Making, Software Development, General Public, and Customers. The form fields and their validation messages are the same as in the previous screenshot.

- **Photo:** An image associated to the publication must be uploaded, otherwise the entry will not be accepted.

Important note:

For *Scientific Publications*, all partners must add their own publications to Zenodo and acknowledge INTEND in the field with circled in red, as signalled in the figure bellow.

The screenshot shows the 'Funding' section of the reporting tool. It includes a text area for funding information and a list of grants. The grant 'DataCloud 101016835' is highlighted with a red circle. The text in the funding area reads: 'Zenodo is integrated into reporting lines for research funded by the European Commission via [OpenAIRE](#). Specify grants which have funded your research, and we will let your funding agency know!'.

Only after this should you report the publication in the tool, as instructed above.

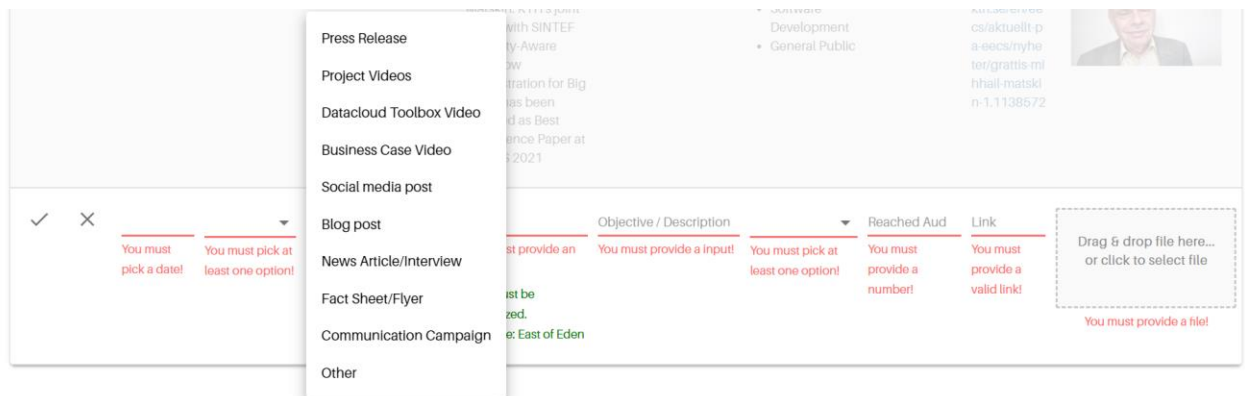

2. Communication Activities

In this section the partners must report the activities that have been assigned to them in the Communication Plan, such as Press Releases, Factsheets, Project Videos, Toolbox Videos, Business Case Videos, Social Media posts, Blog posts, etc.,

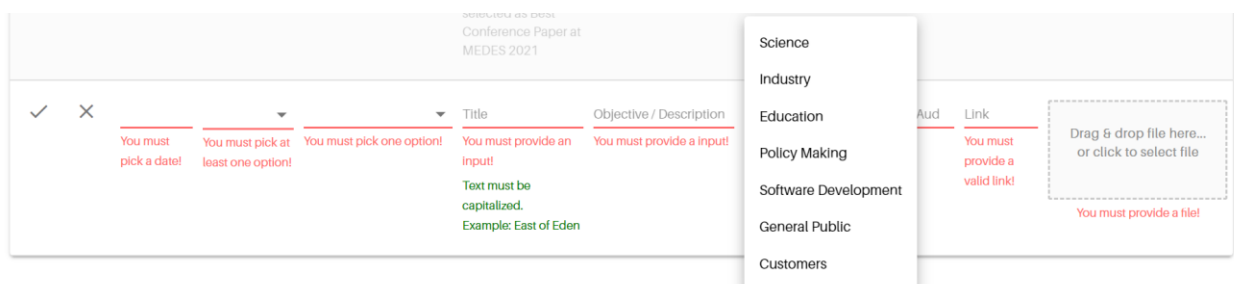

By clicking the “**Add New**” button, a new entry can be inserted by filling in the following fields:

- **Date:** The date in which the communication activity was performed/accomplished.
- **Partners:** The partners that participated in the communication activity can be picked from a dropdown list in which the user must select one or more options.
- **Type of Communication:** The type of communication activity can be picked from a dropdown list in which the user must select one option only (*Press Release, Project Videos, INTEND Toolbox Video, Business Case Video, Social Media post, Blog post, News Article/Interview, Factsheet/Flyer, Communication Campaign or Other*).

- **Title:** Text field containing the title of the communication activity.
- **Objective/Description:** Text field containing the objective/description of the communication activity.
- **Target Audience:** The target audience can be picked from a dropdown list in which the user must select one or more options (*Science, Industry, Education, Policy Making, Software Development, General Public and/or Customers*).

- **Reached Audience:** Number of people reached by the activity.
- **Link:** Text field containing the link to the communication activity (e.g. link for Youtube video, Twitter post, etc). Input must be a link otherwise it will not be accepted.
- **Photo:** An image associated to the communication activity must be uploaded, otherwise the entry will not be accepted.

3. Events & Meetings

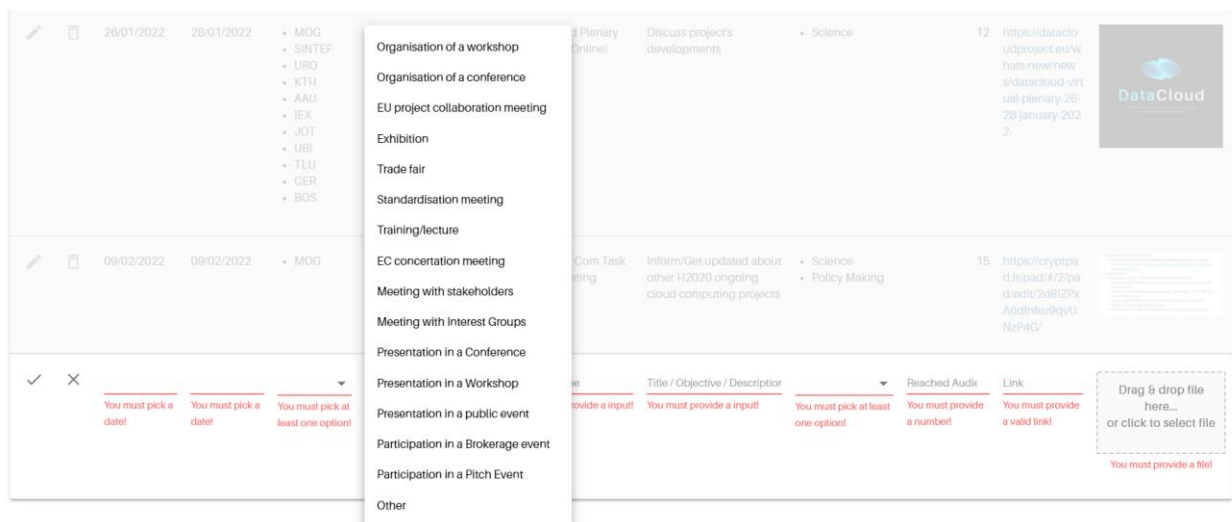

In this section the partners must report any INTEND related events or meetings which occur in the scope of the project's Communication and Dissemination plan.

By clicking the “**Add New**” button, a new entry can be inserted by filling in the following fields:

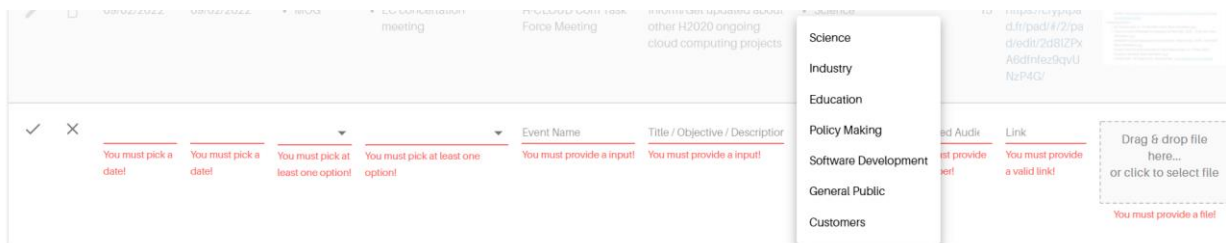

EVENTS & MEETINGS										
+ ADD NEW FILTER EXPORT										
Actions	Start Date	End Date	Partners	Type of Event	Event Name	Title / Objective / Description	Target Audience	Reached Audience	Link	Photo

- **Start Date:** The start date of the event or meeting.
- **End Date:** The end date of the event or meeting.
- **Partners:** The partners that participated in the event or meeting can be picked from a dropdown in which the user must select one or more options.
- **Type of Event:** The type of event can be picked from a dropdown in which the user must select one or more options (*Organisation of a workshop, Organisation of a conference, EU project collaboration meeting, Exhibition, Trade Fair, Standardisation meeting, Training/Lecture, EC concertation meeting, Meeting with Stakeholders, Meeting with Interest Groups, Presentation in a Conference, Presentation in a Workshop, Presentation in a Public Event, Participation in a Brokerage Event, Participation in a Pitch Event and/or Other*).

- **Event Name:** Text field containing the event name.

- **Title/Objective/Description:** Text field containing the title/objective/description of the event or meeting.
- **Target Audience:** The target audience can be picked from a dropdown list in which the user must select one or more options (*Science, Industry, Education, Policy Making, Software Development, General Public* and/or *Customers*).

- **Reached Audience:** Number of people reached by event or meeting.
- **Link:** Text field containing the link to the event or meeting. Input must be a link otherwise it will not be accepted.
- **Photo:** Image associated to the event or meeting.

Submit, edit, and delete entries

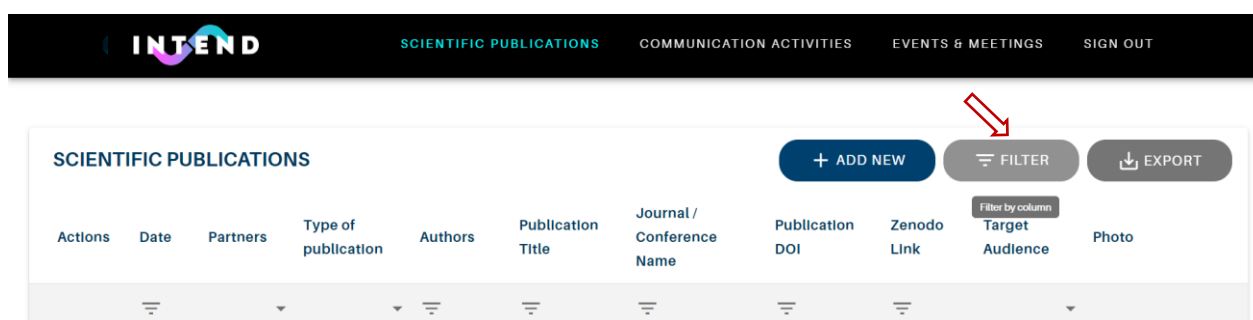

When all fields have been filled in with valid data, the new entry can be submitted by clicking the ✓ symbol and will then appear in the table as a new row. The entry can be rejected before being submitted by clicking the ✕ symbol.

Users can also easily update or delete existing rows in the table by pressing the corresponding “Edit” ✎ or “Delete” 🗑 icons displayed in each row.

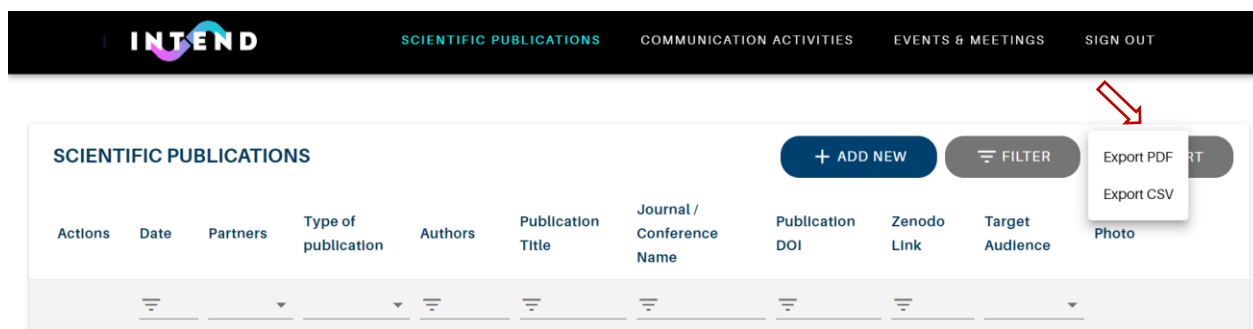

Actions	Start Date	End Date	Partners	Type of Event	Event Name	Title / Objective / Description	Target Audience	Reached Audience	Link	Photo
 	26/03/2021	26/03/2021	• AAU	• Presentation in a Conference	Memphis DATA Conference 2021	Keynote speech: Distribute one Billion	• Science	30	https://sites.google.com/view/memmn	

It is also possible to apply one or more filters to the reporting tables. To filter column content, users need to press the “Filter” button to display the filter row and apply the desired filters to the table.

Actions	Date	Partners	Type of publication	Authors	Publication Title	Journal / Conference Name	Publication DOI	Zenodo Link	Target Audience	Photo
										

Finally, the “Export” button enables the table’s data exporting either as a .pdf or as a .csv file which can be saved on to the user’s computer.

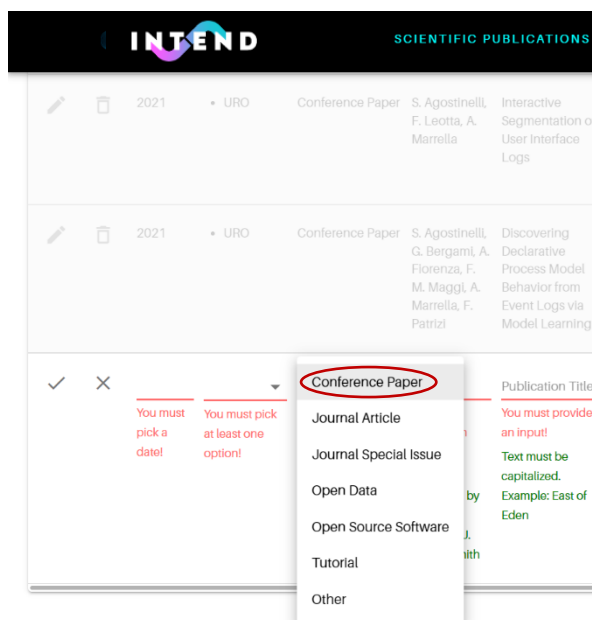

The screenshot shows the INTEND interface with the 'SCIENTIFIC PUBLICATIONS' section active. A table lists publications with columns: Actions, Date, Partners, Type of publication, Authors, Publication Title, Journal / Conference Name, Publication DOI, Zenodo Link, Target Audience, and Photo. Above the table are buttons for '+ ADD NEW' and 'FILTER'. To the right, a dropdown menu is open, showing 'Export PDF' and 'Export CSV' options, with a red arrow pointing to the 'Export' button.

Important notes for specific activities reporting

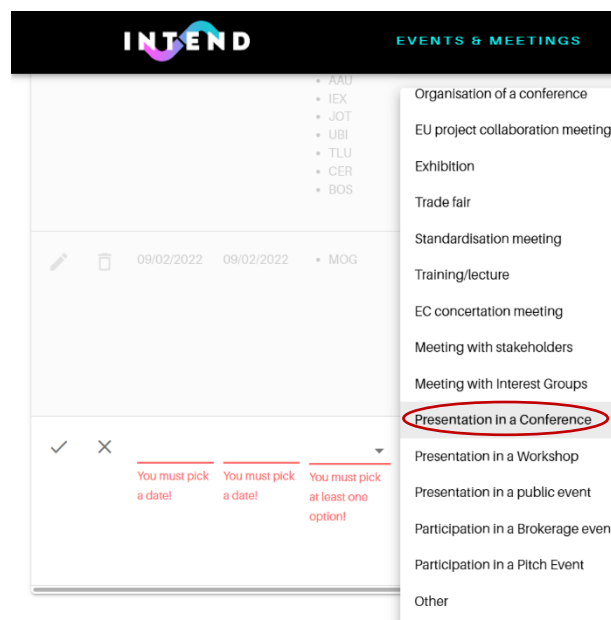

Although most activities are easy and intuitive to report, some may not be so straight-forward, such are the following cases, for which specific guidelines are presented:

Conference Papers Workshop Papers

Conference and workshop papers must be reported as both as a *Conference Paper* (Dissemination activity) in the [Scientific Publications](#) section and as a *Presentation in a Conference* ((Dissemination activity) in the [Events & Meetings](#) section.

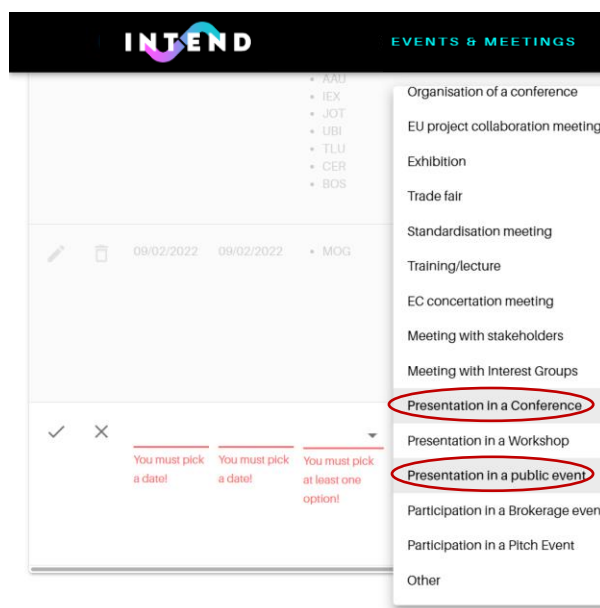

The screenshot shows the INTEND interface with the 'SCIENTIFIC PUBLICATIONS' section active. A form is displayed with fields for Date, Partners, Type of publication, Authors, and Publication Title. The 'Type of publication' dropdown menu is open, showing options: Conference Paper (highlighted with a red circle), Journal Article, Journal Special Issue, Open Data, Open Source Software, Tutorial, and Other. Red error messages are visible: 'You must pick a date!' and 'You must pick at least one option!'.

The screenshot shows the INTEND interface with the 'EVENTS & MEETINGS' section active. A form is displayed with fields for Date, Partners, and Type of event. The 'Type of event' dropdown menu is open, showing options: Organisation of a conference, EU project collaboration meeting, Exhibition, Trade fair, Standardisation meeting, Training/lecture, EC concertation meeting, Meeting with stakeholders, Meeting with Interest Groups, Presentation in a Conference (highlighted with a red circle), Presentation in a Workshop, Presentation in a public event, Participation in a Brokerage event, Participation in a Pitch Event, and Other. Red error messages are visible: 'You must pick a date!', 'You must pick at least one option!', and 'You must pick a date!'.

Presentation in a Conference (without a paper)

Conferences in which no papers are presented (for e.g., keynote speech) must be reported both as a *Presentation in a Conference* (Dissemination activity) and as a *Presentation in a Public Event* (Communication activity) in the [Events & Meetings section](#).

Meeting with stakeholders

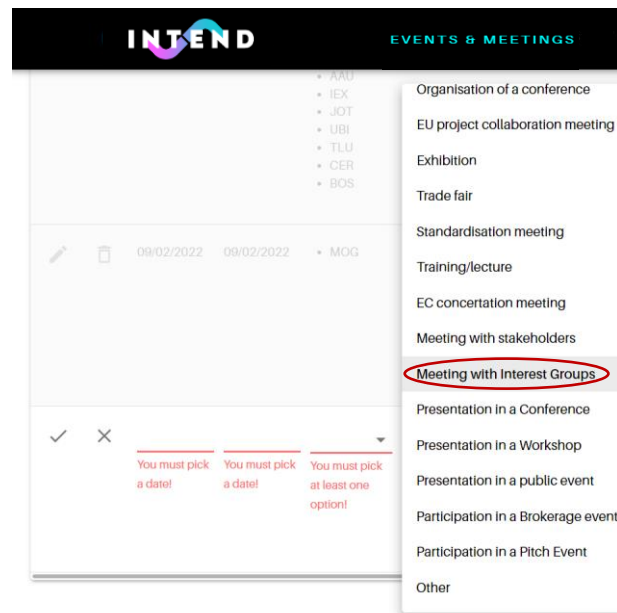

Meetings with partners, clients, peers, etc, in which INTEND was discussed (both a Communication and Dissemination activity) must be reported as a *Meeting with stakeholders* in the **Events & Meetings** section.

The screenshot shows the INTEND reporting tool interface. The top bar displays the INTEND logo and the 'EVENTS & MEETINGS' section. A dropdown menu is open, showing a list of event types. The option 'Meeting with stakeholders' is highlighted with a red circle. Other options include 'Organisation of a workshop', 'Organisation of a conference', 'EU project collaboration meeting', 'Exhibition', 'Trade fair', 'Standardisation meeting', 'Training/lecture', 'EC concertation meeting', 'Meeting with Interest Groups', 'Presentation in a Conference', 'Presentation in a Workshop', 'Presentation in a public event', 'Participation in a Brokerage event', and 'Participation in a Pitch Event'. The background shows a form with fields for dates (09/02/2022) and a dropdown for 'MOG'. There are also validation messages: 'You must pick a date!', 'You must pick a date!', and 'You must pick at least one option!'.

Meeting with Interest Groups

Consortium meetings with a member of the Advisory Board (Communication activity) must be reported as a *Meeting with Interest Groups* in the **Events & Meetings** section.

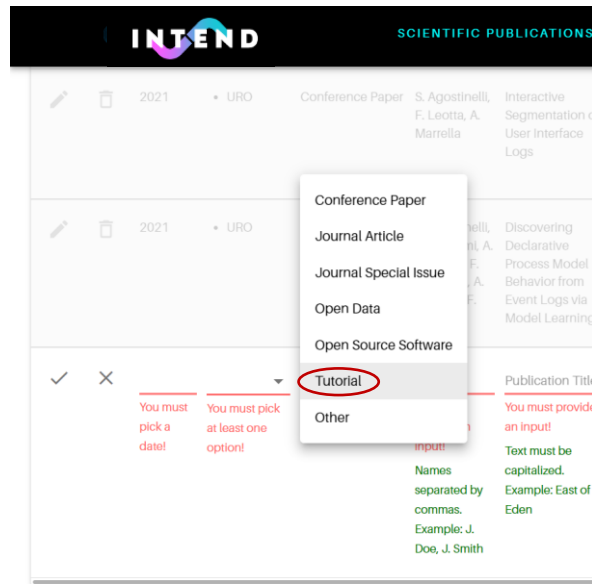

The screenshot shows the INTEND reporting tool interface. The top bar displays the INTEND logo and the 'EVENTS & MEETINGS' section. A dropdown menu is open, showing a list of event types. The option 'Meeting with Interest Groups' is highlighted with a red circle. Other options include 'Organisation of a conference', 'EU project collaboration meeting', 'Exhibition', 'Trade fair', 'Standardisation meeting', 'Training/lecture', 'EC concertation meeting', 'Meeting with stakeholders', 'Presentation in a Conference', 'Presentation in a Workshop', 'Presentation in a public event', 'Participation in a Brokerage event', 'Participation in a Pitch Event', and 'Other'. The background shows a form with fields for dates (09/02/2022) and a dropdown for 'MOG'. There are also validation messages: 'You must pick a date!', 'You must pick a date!', and 'You must pick at least one option!'.

Tutorials

Can be divided into scientific tutorials and Business Cases tutorials and must be reported as *Tutorials* (Dissemination activity) in the *Scientific Publications* section.

- Hands-on;
- Scientific: Conference / Workshop;
- Business Cases: Internal meetings discussing how a particular BC can use a certain tool.

Training/ Lectures

Any presentation to a course (BSc, MSc, PhD, Post-grad, etc) must be reported as *Training/Lectures* (Dissemination activity) in the *Events & Meetings* section.
